

LAPTOP NOTEBOOK SECURE STORAGE UNITS

- Securely store laptop and recharge at the same time.
- Twin point locking system.
- Holds up to 30 Laptops.
- We custom make to suit your needs.
- Safely fixes to your wall, or add wheels for a mobile unit

BUDGET all in one security storage and re-charge unit

We have a budget solution to securely store and recharge laptops or notebooks at the same time. It's open design allows maximum airflow whilst charging.

Solid steel construction, powder coated any standard colour. The cavities for the Laptops are lined with a polyester carpet inlay with rubber trim to protect laptop. With a simple twin point locking system allowing you to use your existing locks. Designed as a handy mobile unit , it can be adapted to fix to your wall.

All units have handy slide out trays for easy access to power packs. Also, welded plates for you to fix your power boards or have us supply and install them for you.

Our largest unit fits 30 laptops however we are the manufacturers and we can design and create a unit to suit your individual needs. Made here in our Wetherill Park, Sydney factory, **quality is assured!**

We offer free delivery within the Sydney metropolitan area.
